Jimmy Neutron Theme

Bowling for Soup

From here to the stars, With my candy bars, Rides a kid With a knack

For inventions. A super-powered mind,

A mechanical canine,

He rescues the day

From sure destruction. He's gotta save the world

And get to school on time,

So many things to do

And not much time

So off the ground,

Up in the air,

Out into the atmoshpere, Who can we count on?

Jimmy Neutron!

Who can we count on?

Jimmy Neutron!

Who can we count on?

Jimmy Neutron!No matter where you are,

You know he can't be far,

Watching the world

Through x-ray visionAnd whenever he's around,

Where adventure can be found,

You know that Jimmy Neutron's

On a mission

He's gotta save the world

And get to school on time,

So many things to do

And not much timeSo off the ground,

Up in the air,

Out into the atmoshpere, Who can we count on?

Jimmy Neutron!

Who can we count on?

It's Jimmy Neutron!
