

# Keep It Trill

Kirko Bangz

I just wanna, I just wanna, I just wanna  
I just wanna, I just wanna  
Lay it down, lay it down I'm doing thangs I never did before (did before)  
Slippin on my pimpin (pimpin, pimpin)  
You hearing thangs you never heard before (heard before)  
But I say girl you trippin  
You know I'm out here with all of my niggas baby  
We ain't doing no tripping baby (trippin baby)  
So why you tryina play me?  
Cause if you read between the lines  
Your past is bad as mine  
So baby let's keep it trill, trill  
Now girl I know you got me (got me)  
You know I got you too (got you too)  
Them other women they be bopping you (bopping you)  
But girl I'm feeling you, baby  
I know you doubt me  
Hatin' ass nigga talkin' bout me  
Everywhere you go, there's another hoe  
Like how she know she about me  
I know you doubt me  
But just to keep it trill  
I heard about you things  
So baby girl let's keep it real  
Oh, and these 2 women looking real fine  
And I can have them to myself  
But now this girl blowing up my line  
But shit, she talkin to herself  
She say, you can run the streets with your thugs  
I'll be waiting for you, (you)  
Until you get through (get through)  
but don't say it if you ain't bout it babe Now girl I know you got me (got me)  
You know I got you too (got you too)  
Them other women they be bopping you (bopping you)  
But girl I'm feeling you, baby  
I know you doubt me  
Hatin' ass nigga talkin' bout me  
Everywhere you go, there's another hoe  
Like how she know she about me  
I know you doubt me  
But just to keep it trill  
I heard about you things

So baby girl let's keep it real I just wanna, I just wanna  
Lay it down, lay it down baby  
I just wanna, I just wanna  
Lay it down, lay it down baby They don't know  
Don't listen to, what the people say  
They don't know about, bout you and me  
Get it out your mind, cause it's jealousy  
They don't know. Now girl I know you got me (got me)  
You know I got you too (got you too)  
Them other women they be bopping you (bopping you)  
But girl I'm feeling you, baby  
I know you doubt me  
Hatin' ass nigga talkin' bout me  
Everywhere you go, there's another hoe  
Like how she know she about me  
I know you doubt me  
But just to keep it trill  
I heard about you things  
So baby girl let's keep it real
