

Kiss You (feat. Nadia Ali)

lio

I'd wake up and make love to you if I had you
I would touch you so much but I'm not allowed to
What I hate is to wait but in this case I'm patient
I'm discreet, I'm not weak, I just need the moment
He wants me, he wants me not
I want everything he's got
If I leaned over and tried to kiss you
Would I be wrong after so long to kiss you?
Would you pretend we're only friends if I kissed you?
At least I can dream of you in a scene when I kiss you
On one hand we are friends
But still my mind, it wanders
Through the side streets and alleys
I just keep growing fonder
He wants me, he wants me not
I want everything he's got
If I leaned over and tried to kiss you
Would I be wrong after so long to kiss you?
Would you pretend we're only friends if I kissed you?
At least I can dream of you in a scene when I kiss you
He wants me, he wants me not
I want everything he's got
He wants me, he wants me not
I want everything he's got
To stop me is not easy
Can't keep a lion from hunting
I'm focused, I won't miss
There's no control of some things
If I leaned over and tried to kiss you
Would I be wrong after so long to kiss you?
Would you pretend we're only friends if I kissed you?
At least I can dream of you in a scene when I kiss you
I kissed you, can I kiss you?
