

# Need Your Love

Curtis Harding

I feel so blue  
Without you girl  
I need your love That's why I'm down  
You're not around now  
I need your love I want you to stay  
Don't go away now  
I need your love Late at night  
When she ain't right girl  
I need your love  
No, I tried  
I can't deny  
You know why  
I need your love, baby  
I need your love Can't get enough  
Of your good stuff now  
I need your love Don't be late  
Girl I can't wait now  
I need your love I played a fool  
Just to be cool now  
I need your love But I'm getting high  
Girl I can fly now  
I need your love  
So I tried  
I can't deny  
Who know why  
I need your love, baby  
I need your love, cool girl But there come a time  
In every man's life  
Where he got to have  
His woman's love  
You're don't hear me?  
Wear your face back in  
Alright When I'm by my break  
All I can take now  
I need your love Who made me feel  
All so real girl  
I need your love I heard this song  
Girl come on now  
I need your love I pray it again  
Until the end now  
I need your love No I tried  
I can't deny

You know why  
I need your love, baby  
I need your love, cool girl  
I need your love, baby  
I need your love
