## Nineteen

## **Buck-O-Nine**

Not long ago, there was a time
When everything would blow my mind
Then I'd learn a bit more, learn a bit more
It canceled everything I learned beforeSaid,? Hey, I don't know what I'm doing?
Should I plan on my class reunion?
I've been working on the vision of clarity

This is how it boils down to meWell, anything is possible

Yeah, anything and everything

Anything and everythingSaid, anything is possible

Yeah, anything and everything Anything and everything

Is possible, is possible to me

Well, was nineteen, I thought I'd seen

Everything I was gonna see

Then I'd see a bit more, see a bit more

Canceled everything I'd seen beforeSaid,? Hey, I thought I knew it all?

I was setting up for a hell of a fall

Writing down my philosophy songs

There's one that still holds strongSaid, anything is possible

Yeah, anything and everything

Anything and everythingSaid, anything is possible

Yeah, anything and everything

Anything and everything

Is possible, yeah, is possible to me

With everyday that goes by

The less and less, I wonder why

'Cause I've seen 'em rise and I've seen 'em fall

But I'll never claim to have seen it allI said,? Hey, I ain't seen a thing?

You never know what tomorrow will bring

Been working on a state of mind

Brace yourself for the ride'Cause anything is possible

Yeah, anything and everything

Anything and everythingSaid, anything is possible

Yeah, anything and everything

Anything and everything

Is possible, is possible

Is possible to me, to me, to me, to me
