I Believe

Blessid Union of Souls

Walk blindly to the light and reach out for his hand Don't ask any questions and don't try to understand Open up your mind and then open up your heart And you will see that you and me aren't very far apart 'Cause I believe that love is the answer I believe that love will find the way Violence is spread worldwide and theres families on the street We sell drugs to children now, oh why can't we just see? That all we do is eliminate our future with the things we do today Money is our incentive now so that makes it okay But I believe that love is the answer I believe that love will find the way I believe that love is the answer I believe that love will find the way I've been seeing Lisa now, for a little over a year She says she's never been so happy, but Lisa lives in fear That one day Daddy's gonna find out that she's in love With a Nigger from the streets Oh how he would lose it then, but she's still here with me Cuz she believes that love will see it through One day he'll understand He'll see me as a person, not just a black man 'Cause I believe that love is the answer I believe that love will find the way I believe, I believe, I believe, I believe that love is the answer I believe that love will find a way Love will find the way Love will find the way Love will find the way
