

# See I Miss, Pt. 2 (feat. Marsha Ambrosius)

## GoldLink

[Hook: Goldlink]

Who kneeeewww, yeah  
That I would even miss that bitch  
That I would even miss that bitch  
That I would even miss that bitch  
Who kneeeewww, yeah  
That I would even miss that bitch  
That I would even miss that bitch  
That I would even miss that bitch

[Verse 1: Goldlink]

Yeah, yeah

Drinking on some liquor tryna' cope with the changes  
And all my exes ain't shit, so they shall remain nameless  
And all them bitches that I lied to ran around wit' just to spite you  
And my mama met a couple and she told me they ain't like you  
What you do to me  
I'm still tryna find peace and unity  
I hope it's you they get to speak up at my eulogy  
Cause who could vouch for me like you could vouch me, my baby?  
I think I'm comin round to driving I might scoop you lady  
So we can fuck like we would fuck way back at mama house  
And we would eat late at IHOP or at the Waffle House, know what I'm talkin' bout  
And I'ma hit ya phone cause shorty we should talk it out

[Hook: Goldlink]

Who kneeeewww, yeah  
That I would even miss that bitch  
Miss that bitch  
That I would even miss that bitch  
Who kneeeewww, yeah  
That I would even miss that bitch  
Miss that bitch

That I would even miss that bitch [Verse 2: Marsha Ambrosius]

There's a better way to say that  
A love like this you should miss, I know  
But you tried to explain it, I am not complacent  
I provide you water, take care of your daughter  
I ain't trppin' over nothing, neither either or that  
The weather got stormy, bringing them bullets  
With the suburban, hittin' that bourbon  
Nobody will love you like I did just like I do  
And I forgive you when you do it again  
And again

I got you back when they don't  
I hit you back when you won't  
Me I'll beeee, you'll feel it when I'm gone  
Don't matter whose been around, I'm (?) getcha  
By your side, with ya  
With a side to cuff this shit and let it ride  
It will be alright, alright, alright, alright  
Alright, alright, alright, alright  
Nobody will love you like I did just like I do  
And I forgive you when you do it again  
And again yeahhh[Hook: Goldlink + Anderson .Paak]  
Who kneeeeee, yeah  
That I would even miss that bitch  
Miss that bitch  
What's a love like this  
That I would even miss that bitch  
Who kneeeeee, yeah  
That I would even miss that bitch  
Who kneeeeee, yeah  
That I would even miss that bitch[Outro: Marsha Ambrosius]  
Don't you miss me baby?  
Don't you miss me baby?  
Don't you miss me baby?  
Don't you miss me baby?  
Don't you miss me baby?  
Baby
