

# On My Way Back Home

## Band of Horses

On my way back home  
A chance I thought of,  
All my favorite songs  
and where I'd gone wrong. The only words that I could think of  
I'm pissing my life away in the form of song  
On my way back home. Every step,  
a victory it was.  
I was cheating death.  
and just in time I would My memory would start to wander off  
and come to me  
the remembrance of on my way back home. I came in this way.  
in here now I'll stay  
if the unknown will have to wait one more day  
'cause often times then it comes out wrong  
But luckily, I got a mind to know.  
On my way back home.
