

# Where Are You

Benton Paul

I'm out there searching  
I'm out there wondering  
Where she is, where is she?  
I spend most of my time dreaming of  
what it's like, what is it like? To be secure in someone's arms, someone's charm  
I wanna be real sure this time  
That what I'm doin's right, what is right? Where are you?  
Where are you my one, one love?  
Where are you?  
Where are you my one, one  
When it comes down  
When it comes around  
I'll be there, I'll be prepared To be secure in someone's arms, someone's charm  
I wanna be real sure this time  
That what I'm doin's right, yeah that's right Where are you?  
Where are you my one, one love?  
Where are you?  
Where are you my one, one? With me it's always a rearview  
She's not as close as she appears to  
With me it's always a rearview  
She's not close  
Where are ya? Where are ya?  
Where are you my one love?  
Where are you?  
Where are you my one?
