## No Doubt

## **Nivea**

You should know
No doubt, no doubt, no doubt, no doubt
You should know
No doubt, no doubt, no doubt... no doubt
You should know
No doubt, no doubt, no doubt, no doubt
You should know

No doubt, no doubtYou should know by now that I really like when you're around It's so irreplaceable, what we have with you and I

And you should know by now that we belong on each other's team

One of the greatest things that came to be is you and me, you and me

I hope by now you recognize no matter what I'm here for life
You ain't getting rid of me, that is just the bottom line

I think you understand by now we can always work it out

No matter what, I'm down, I'm down

There ain't no doubt that I still love you

No doubt I love you babe, really really love you babe

There ain't no doubt that I still want you

No doubt I want you babe, really really want you babe

Shouldn't be no doubt that I'm here for you

No doubt I'm here for you, really really here for you

I have no doubt about being with you

It's me for youThinking back on what I did to cause you so much pain

It was such a silly thing I did to our relationship

But here's something from the heart, I really do apologize

Don't cut me off cause I really love ya

I love ya babe, love ya babe

And I want ya, I want ya babe, want ya babeSaid I'm here for ya, for ya babe, for ya babe Forever I'm with you, I'm with you

Baby can't you see you belong with me

I'll be here for you so I'm telling youThere ain't no doubt that I still love you

No doubt I love you babe, really really love you babe

There ain't no doubt that I still want you

No doubt I want you babe, really really want you babe

Shouldn't be no doubt that I'm here for you

No doubt I'm here for you, really really here for you

I have no doubt about being with you

It's me for you(Spoken)

Look baby, I want you to know I love you

And I always will. don't worry, cause you know...There ain't no doubt that I still love you No doubt I love you babe, really really love you babe

There ain't no doubt that I still want you

No doubt I want you babe, really really want you babe
Shouldn't be no doubt that I'm here for you
No doubt I'm here for you, really really here for you
I have no doubt about being with you
It's me for youYou should know
No doubt, no doubt, no doubt, no doubt
You should know
No doubt, no doubt, no doubt... no doubt
You should know
No doubt, no doubt, no doubt, no doubt
You should know
No doubt, no doubt
You should know
No doubt, no doubt
