

Objects of Desire

Susperia

An ancient evil centuries old has awakened in the form of the wicked
They use their beauty and their insatiable lust as a potent life force
They become the objects of
insane desire

But their kisses yield torture and violence as their suitors discover
Only I am strong enough to
end their quest for total domain

And only I am strong enough to test them in grand test of will
I was never more dangerous than
with the night angels, mistresses of hell
An ancient evil centuries old has awakened in the form
of the wicked

They use their beauty and their insatiable lust as a potent life force
They become the objects of
insane desire

But their kisses yield torture and violence as their suitors discover
Only I am strong enough to
end their quest for total domain

And only I am strong enough to test them in grand test of will

I was never more dangerous than with the night angels, mistresses of hell
