Rehab

Down

Long day lay me low. Lay me low. Head burning drunk. I don't need none That's right man I'm fine But what I've got to know, Is have I wasted time? My eyes are blind To almost everything you see. And I'm drowning through sorrow - you recognize me -Be me for a change (fucked) Under the silk, In a box of pine, And that's dying -Not a single other life Ever will have felt my price Is it worth the risk to be revived? And I'm dying, I'm hollow - It won't deny me -Be me for a change (fucked) How long will I stay? They'll take the pain away On and outta my mind Gimme some medicine... And I'm drowning through sorrow - it won't deny me -Be me for a change (fucked) Yeah, one more time...Long day kill me long
