

Knock It On the Head

Wood

Gonna give myself a talking to
I don't think I'm getting through
After that I'll knock it on the head Gonna ask myself for one last try
Give myself a reason why
After that I'll knock it on the head You can be sure, I'm trying my best
But I could stay in every night and still fail the test
I won't let on say everything's fine
The walls are closing in but I do not mind I'm gonna give myself a talking to
I don't think I'm getting through
After that I'll knock it on the head I'm gonna ask myself for one last try
Give myself a reason why
After that I'll knock it on the head
Make the phone ring, bring me good news
I live in deep freeze but I thawed out for you
God only knows what I'm gonna do now
I could get on but I don't know how I'm gonna give myself a talking to
I don't think I'm getting through
After that I'll knock it on the head I'm gonna ask myself for one last try
Give myself a reason why
After that I'll knock it on the head Can I sleep slipping back?
And every day that passes ah, I want back
I want back now, now Make the phone ring, bring me good news
I live in deep freeze but I thawed out for you
God only knows what I'm gonna do now
I could get on but I don't know how
Gonna give myself a talking to
I don't think I'm getting through
After that I'll knock it on the head
After that I'll knock it on the head
After that I'll knock it on the head Gonna get somewhere
Gonna get somewhere
Gonna get somewhere
