

Faith

Marillion

What I have here in my hand
Is like faith but not faith
For those without faith also have
What I have here in my hand
What I have here in my hand
Is like feeling but deeper
It's why I am here
What I have here in my hand
Is knowledge without proof
What I have here in my hand
This is what I feel for you
It's why the Earth is alive
It makes electricity work
And fire dance in the sky...
Feel it
Feel inside the atoms where the science
breaks down
Feel inside the atoms where the science
breaks down
If you don't believe me in love
You'd have to make it up
You'd have to make it up
You'd have to make it up
What I have here in my hand
Is like faith but not faith
What I have here in my hand
This is what I feel for you
What I have here in my hand
Is like knowing but deeper
It's why I am here
It's why I am here
