Faith

Marillion

What I have here in my hand Is like faith but not faith For those without faith also have What I have here in my handWhat I have here in my hand Is like feeling but deeper It's why I am hereWhat I have here in my hand Is knowledge without proof What I have here in my hand This is what I feel for you It's why the Earth is alive It makes electricity work And fire dance in the sky...Feel it Feel inside the atoms where the science breaks down Feel inside the atoms where the science breaks down If you don't believe me in love You'd have to make it up You'd have to make it up You'd have to make it upWhat I have here in my hand Is like faith but not faith What I have here in my hand This is what I feel for you What I have here in my hand Is like knowing but deeper It's why I am here It's why I am here Song Discussions is protected by U.S. Patent 9401941.
