

# Astral Path to Supreme Majesties

## Inquisition

Far in the night sky a path is born  
Stars form the path  
and carry my soul  
Cosmic fire of the stars I ride  
High I rise as a master of skies  
Lonesome realm where the  
spirits are dust  
Poison clouds are the breath of  
life  
Tunnels of death are invisible wings  
Mystique moons are floating tombs  
Black cosmic sea, I sing to  
thee  
Open the path, oh! Majesty  
Infinite universe as  
silent as death  
In this coffin I lay to rest  
Astral  
bodies guide me to the throne  
Now I have joined the cosmic  
crypts  
Black cosmic sea, I sing to thee  
Open the path,  
oh! Majesty
