

Astral Path to Supreme Majesties

Inquisition

Far in the night sky a path is born
Stars form the path
and carry my soul
Cosmic fire of the stars I ride
High I rise as a master of skies
Lonesome realm where the
spirits are dust
Poison clouds are the breath of
life
Tunnels of death are invisible wings
Mystique moons are floating tombs
Black cosmic sea, I sing to
thee
Open the path, oh! Majesty
Infinite universe as
silent as death
In this coffin I lay to rest
Astral
bodies guide me to the throne
Now I have joined the cosmic
crypts
Black cosmic sea, I sing to thee
Open the path,
oh! Majesty
