

Only Us

Kygo & Haux

Stolen tears in the fast back
Telling lies 'til the lungs black
Silhouette, will you ride out With me? With me? And we're so close, come so far
Two strangers in the dark I want you to know, want you to say
It's only us, only us
I want you to know, don't be afraid
It's only us, only us
I want you to know, want you to say
It's only us, only us
I want you to know, want you to say
It's only us, only us
Steady eyes on the way back
Heavy hearts when they fade black
Silhouette with the cold sweat
Stay up with me, with me And we're so close, come so far
We're falling in the dark I want you to know, want you to say
It's only us, only us
I want you to know, don't be afraid
It's only us, only us
I want you to know, want you to say
It's only us, only us
I want you to know, want you to say
It's only us, only us
It's only us (Only us)
It's only us (Only us)
It's only us (Only us)
It's only us
It's only us, only us Won't let you let me go
Won't let you let me go
Won't let you let me go
Won't let you let me go
Won't let you let me go
Won't let you let me go (Only us)
Won't let you let me go
(Only us)
