

Nothin' Sweeter Than Arabia

Falco

Yah,
Yah,
Yahlah,
They say there is religion
There is a kind of taste
Get me the celebration
And I will give you the waste
There will be no danger
No trouble at all
We need a stand-up together
Those curtains are not to fall
Arabian nights
Arabian nights
There's no way out for me
This dream will capture me for years
Yellow night light
In a city of white
I'm stranded in the desert
I'm stranded in a fight
Arabian nights
Arabian
Arabian nights
There's no way out for me
This dream will capture me for years
Yellow night light
In a city of white
I'm stranded in the desert
I'm stranded in a fight
There's no one here who's
Gonna save you [should probably be "save"]
There's nothin' sweeter than Arabia
There's no way out for me
This dream will capture me too far
In a city of white
I'm stranded in the desert
I'm stranded
En-cha-la
Arabian nights
A-RA-BI-A
There's nothin' sweeter than Arabia
