

# Fix You

## Vicetone

[Verse 1]

I could be the remedy  
For your soul, for your soul  
Call me your physician  
I'll make you home, make you home[Chorus]  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right  
So let me fix you

[Verse 2]

Tell me when you're hurt  
And I'll be there, I'll be there  
And you've got things to [?]  
Let me care, let me care[Chorus]  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right

[Bridge]

Who you gonna call when you need that  
Who you gonna call when you need that fix  
Who you gonna call when you need that  
Who you gonna call when you need that fix  
Who you gonna call when you need that  
Who you gonna call when you need that fix  
Who you gonna call when you need that  
Who you gonna call  
So let me fix you[Chorus]  
So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right

So let me fix you when you're low  
Let me hold you when you're cold  
Let me treat you right, let me treat you right
