

Big Smoke, Pt. 2

Tash Sultana

Big Smoke, Pt. 2 (Live)

[Verse 1]

I should had seen this part coming on, coming around the bend

Well I had in my head, great shores (?)

Well I never if I want to feel that way again

Well I'm going down your lies

cause I know that way you feel is fine

Well I know I'm gonna step into the lights [Chorus]

When the big smoke comes I know the way

I want to sail(?) my way home

When the big smoke comes I know the way

I want to sail(?) my way

[Verse 2]

I've been sitting waiting wishing, thinking about all the time I'm missing

No I won't be no woman inside the kitchen

Come here darling, I'll cut you lose

Don't you dare try to tell me what to do

Why don't you step into my shoes

Oh what am I supposed to do about me and you

When the big smoke comes, I got to run [Chorus]

When the big smoke comes, I know the way

I want to sail(?) my way home

When the big smoke comes, I know the way

I want to, I want to sail(?) my way home

[Verse 3]

Try to comfort yourself, with a song(?)

Please don't think you are the only one

Cause I was done thinking down on myself

Really fucked up, man mentally

Oh, don't you know I speak for myself,

Hey you know the music hits me cause I know you feel it too

oh, so comfortable

[Chorus]

When the big smoke comes, I know the way

I want to sail(?) my way home

When the big smoke comes, I know the way

I want to sail(?) my way home
