Jaded

SOiL

My life is complicated I tried but it's too late an Just when i think that it's ok This place has overtakenMore and more than I'm here It's all fake, I can't tell I think i finally understand How i got this wayEvery day I think that I'm Jaded More than I can admit In every way I think that I'm jaded To all that I have hated I can't begin to state that In every way that I think My brain's activatedMore and more than I'm here It's all fake, I can't tell I think i finally understand How i got this wayEvery day I think that I'm Jaded More than I can admit In every way I think that I'm jaded There is no way that I can turn back I see all things and it's crystal clear Living here is war on my life It has changed every piece of meEvery day I think that I'm Jaded More than I can admit In every way I think that I'm jaded Song Discussions is protected by U.S. Patent 9401941.
