

Too Deep

dvsn

I won't make you pull out
Getting it all tonight
All that I want
I just wanna go down
In history how you like
Wanna be the one
As the one who makes you comfortable
Cause your lips, they got me feeling very vulnerable
The way that you speak to me frequently
Gives me a rise
And I think we're
In too deep
Don't wanna pull out
And I think we're
In too deep
Don't wanna pull out Don't you, baby, pull out
We're right where we're supposed to be
I just wanna go down
Give you what you want, complete-ly
And I just wanna be clear
We're doing right, what we're doing works
There's nothing wrong, I'll stay right here
The way that you speak to me frequently
Gives me a rise
I think we're
In too deep
Don't wanna pull out
I think we're
In too deep
Don't wanna pull out No
Yeah, yeah
Oh I wanna know
