

# Heaven

## Richie Campbell

Not even heaven me put above you  
Not even the stars them shine like you do  
Baby run come give me nah nah i know you well  
Run come give me nah nahGo pon the room go pon the bed  
Turn up the sound let go the rest  
Let down you hair let go the stress  
Take of your shoes take of your dress  
One man like you nah go let me go  
Whisper say you want me inna yard  
Play the game and call out me name  
But the neighbor them a sleep so keep your voice low  
Bite me ... me neck me arm  
Pain you back just like Rihanna  
Love me say no give me drama  
You me want inna me corner  
But I swear I never walkout  
When you want me baby call outMe and you a never fallout  
Let me apply the pressure  
Me a dig deep like me a find treasure  
Me ya feel good like a Lisbon weather  
Your ex man weak and you know me big better  
And she know that no other man know fi make you feel so  
You better believe that  
Baby don't lie me see in your eyes when  
.....  
... fi me stop and grab the sheets ...  
Body get warm and you face a get red  
Come inna me life but tonight you ago ...  
I feel like you want me to go all night
