

# The Antidote

## St. Vincent

I am the antidote  
I'll suck your venom out  
Show me where it really hurts  
I'll show you where it really hurts Should've stopped for the wind  
Should've stopped for love  
Should've stopped for the wind  
Should've stopped for love Honey, your clothes are soaked  
Mom leaves my daddy's traps  
Show me where it really hurts  
I'll show you where it really hurts  
Should've stopped for the wind  
Should've stopped for love  
Should've stopped for the wind  
Should've stopped for love
