

The Antidote

St. Vincent

I am the antidote
I'll suck your venom out
Show me where it really hurts
I'll show you where it really hurts Should've stopped for the wind
Should've stopped for love
Should've stopped for the wind
Should've stopped for love Honey, your clothes are soaked
Mom leaves my daddy's traps
Show me where it really hurts
I'll show you where it really hurts
Should've stopped for the wind
Should've stopped for love
Should've stopped for the wind
Should've stopped for love
