

Signs of Life

Our Lady Peace

We're not looking for trouble
I'm taking one on the chin
I don't know where I'm going
Or where to begin
Alone in this room
Thinking of you and
What could have been
The trouble that I've seen
The trouble got to me There's no signs of life in here at all
The sound of quiet is deafening
I'll wait for you to call
There's no signs of life in here at all
The trouble that I've seen
The trouble won't get the best of me
Ah la la la la la
Ah la la la la la
Ah la la la la la Sending you out a signal
Over land over sea
From the top of the Great Lakes
Down the Mississippi
Alone in a room
Thinking of you
And those possibilities
The trouble that I've seen
This trouble got to me
There's no signs of life in here at all
The sound of quiet is deafening
I'll wait for you to call
There's no signs of life in here at all
The trouble that I've seen
The trouble
Oh the trouble that I've seen
And trouble won't get the best of me There's no signs of life in here at all
The sound of quiet is deafening
I'll wait for you to call
There's no signs of life in here at all
Oh the trouble that I've seen
The trouble
Oh the trouble that I've seen
And trouble won't get the best of me
