

Everywhere We Go

[Randy Travis](#)

They took Your commandments
Off the schoolhouse walls
They say it's a crime
To even pray within the halls
But bless the child that lets You in
And knows without a doubt
Once You live inside a heart,
They can't take You out We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday,
And everywhere we go
Here's to those across the land,
Working in a place
Where the boss man and the government
Say they can't share their faith
They know all too well they'll lose their job
If they get caught
But to win a soul for Jesus,
They will risk it all because We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday,
And everywhere we go In the God of all creation,
We put our faith and trust
And give our lives to You
'Cause You gave Your life for us
We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday,
And everywhere we go Everywhere we go...
