

Show and Tell

Cherish

No need for conversation, oh, our time is wasting
Guess what I'm gonna do? When you step in my room
Oh baby, I've been waiting, it's been enough dating
Doing all that bragging so I've got to have it so, oh I'll give in, if you promise there will be
No talking when you come over
I won't say, no tonight
Wanna work it out with you, boy So baby, are you down for a little show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So baby, are you down for a little
show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you
More than infatuation an Usher imitation
So won't you do it to me like you never did it before
Stay on top of your game, work it like you're glad you came
There's no turning back now, so baby turn me out, so baby I'll give in, if you promise there will
be
No talking when you come over
I won't say, no tonight
Wanna work it out with you, boy So baby, are you down for a little show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So baby, are you down for a little
show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you
I want you to make me feel so good
Act like you know, know just what to do
Ooh baby, come on over and take control of me
Show me baby, this is where you wanna be I was yours for the night, so do it all right
Show me that you want my love, baby So baby, are you down for a little show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So baby, are you down for a little
show and tell?
Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So baby, are you down for a little
show and tell?

Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So baby, are you down for a little
show and tell?

Want you to show me that you want it like you're fresh outta jail
We can get it cracking, boy, don't be acting
Like you don't know what to do when I'm in front of you So go on shine, shine, shine
Don't know where's the way, shine, shine, shine
Already said the tale of ah
Could lovin' is the menu tonight So go on shine, shine, shine
Don't know where's the way, shine, shine, shine
Already said the tale of ah
Could lovin' is the menu tonight
