

# Poison

Brent Faiyaz

Know you ride it right,  
Might just die tonight,  
But you know i'm still coming through baby.  
I know its bad for me,  
And you know it tastes so sweet,  
I think i need your abuse baby. Girl you do damage to me,  
You know i love it, Yeah i love ya  
Aint nothing better for me now.  
Girl you do damage to me,  
You know I love it, yeah i love ya  
Aint nothing better for me now,  
than your poison baby.  
Angel of the night,  
Drown between your thighs,  
I'm still here, ain't no excuse baby.  
I see you in my sleep.  
I'm scarred beyond belief.  
Ain't nothing you can't make me do, baby. Girl you do damage to me,  
You know i love it, Yeah i love ya  
Aint nothing better for me now.  
Girl you do damage to me,  
You know I love it, yeah i love ya  
Aint nothing better for me now,  
than your poison baby.  
Girl you know I play my role when i'm inside that,  
With my hand around your throat I know you like that.  
Girl I'll do anything,  
to hear you scream my name, I love your game, I do. I do. Girl you do damage to me...  
You know i love it...  
You're poisonous baby
