## Enuff Z'Nuff

Hi-gh  
Hi-gh World of thoughts it's an endless space  
And sometimes even underground  
Helpless in the human race  
And hopeless when the sun goes down If you give me a load  
If you give me it all  
I promise the world I can make it  
One thing I know  
If you leave me alone  
I'm stoned  
Hi-gh All around temptation calling to me  
Calls me by my name  
Darling tasting your sweet apples  
More temptating than cocaine If you give me a load  
If you give me it all  
I promise the world I can make it  
One thing I know  
If you leave me alone  
I'm stoned (Guitar solo) People all around me seem to bluff to get me  
On the thing  
Hope my darling you could save  
Take me home  
I'll be a king  
If you give me a load  
If you give me it all  
I promise the world I can make it  
One thing I know  
If you leave me alone  
I'm stoned If you give me a load  
If you give me it all  
I promise the world I can make it  
One thing I know  
If you leave me alone  
I'm stoned (Guitar solo) Stoned  
Stoned Hi-gh
