

# Take It Off

## The Donnas

I'm on my second drink  
But I've had a few before  
I'm trying hard to think  
And I think that I want you on the floor  
Uh-huh, yeah on the floor Go on and take it off (Take it off)  
You got to shake it off baby for me  
Come on and break me off (Break me off)  
Cause I get what I want and I like what I see me  
Need your love, one, two, three  
Stop starin' at my D-cup  
Don't waste time just give it to me  
C'mon baby just feel me up  
C'mon, just give it up Go on and take it off (Take it off)  
You got to shake it off baby for me  
Come on and break me off (Break me off)  
Cause I get what I want and I like what I see me Forget the application  
You're the right guy for the task  
Let me take you on vacation  
Just do it, you don't have to ask  
Go on and take it off (Take it off)  
You got to shake it off baby for me  
Come on and break me off (Break me off)  
Cause I get what I want and I like what I see me  
Take it off  
Take it off baby for me  
Take it off  
Take it off baby for me
