

# Jealous Type

Bahja Rodriguez

Aaaaah  
Night's like this I be cruising  
Seat laid back, windows down  
Got that boom boom in my system Turn it up when I need to vent some  
See that other chick you been chasing  
She cute or whateva'  
But I could introduce you to someone much better And you know that's me, much better  
If you wanna bad bitch, makin' money (check)  
Need someone to call you up when you're lonely (check)  
Or put it on you real good when you want it  
Or put it on you real good when you want it  
If you wanna bad bitch, makin' money (check)  
Need someone to call you up when you're lonely (check)  
Or put it on you real good when you want it  
Or put it on you real good when you want it  
I can love you right  
I'm not the jealous type, but boy  
I can treat you right  
Much better, Much better, Much better than she can  
Much better, Much better, Much better than she can  
But, I'm not jealous cause I can treat you better  
I see you going real hard  
I see you giving her all  
But let me tell you all that she doin' I can do it ten times over let me show ya  
That bitch ain't got nothing on me  
Please believe I aim to please  
Ain't no other chick gon' out show me  
No bitch can out show me  
If you want a bad bitch makin' money (check)  
Need someone to call you up when you're lonely (check)  
Or put it in you real good when you want it  
Or put it on you real good when you want it  
If you want a bad bitch makin' money (check)  
Need someone to call you up when you're lonely (check)  
Or put it in you real good when you want it  
Or put it in you real good when you want it  
I can love you right I'm not the jealous type but boy  
I can treat you right  
Much better, Much better, Much better than she can  
Much better, Much better, Much better than she can  
But, I'm not jealous cause I can treat you better  
(But But) But I'm not jealous cause I can treat you better

(But But But)But I'm not the jealous cause I can treat you better (Better Better)  
But I'm not jealous cause I can treat you better(Better Better Better Better)  
But I'm not jealous cause I can treat you better  
I can love you right  
I'm not the jealous type but boy I can treat you right  
Much better, Much better, Much better than she can  
Much better, Much better, Much better than she can  
But, I'm not jealous cause I can treat you better
