

Ghost (feat. Myles Kennedy & the Conspirators)

Slash

Kill the ghost
That hides in your soul
Rock 'n' Roll
Rock 'n' Roll
Rock Rock Wipe the blood from your Halo
open wound that you hide your shadow's pride
Spit in the face of the ugly clown
Who'll hunt you down
But you can't hide
Exterminate the future Kill the ghost
That hides in your soul
Rock 'n' Roll
Kill the ghost
That hides in your soul
Rock 'n' Roll
Whispers of the future
Broke in half in your skull with a in your smile
Exterminate the future Kill the ghost
That hides in your soul Kill the ghost
That hides in your soul You can't run from the future
You can't change the past
You're not that fast You can't run from the future
You can't change the past
Not that fast Kill the ghost
That hides in your soul Kill the ghost
That hides in your soul
Kill the ghost
That hides in your soul Kill Rock N Roll
