

# Strangers to Ourselves

## Modest Mouse

We're lucky that  
We're lucky that we slept  
It didn't seem like we realized we'd be stuck in traffic  
We're lucky that  
We slept  
Not to be confused the points from the purpose  
We're lucky that  
We're lucky that we're so capable to forget  
How lucky we are that we are so easy, so easy to forget  
How often we become susceptible to regret I do regret  
How often we are confused how honestly we try  
but we'll forget  
We have designed, have designed, have designed  
More unusual things as yet  
How often we are confused  
How honest we tried  
But we'll forget  
We'll forget
