

Stay Over

Tove Lo

You gave me my birthday kiss
I gave you a pill, said you'll get high off of this
You hit a few parties that night
I stayed where I was cause I hoped that you'd come and find me
See in your eyes you just went
through war
Whatever it was broke your heart
You dip your toes back in, take it slow
Well I'm nothing like what you've had before
So
Already deep in my bed baby
Why don't you stay over
Know we've been bending the rules lately
But why don't you stay over
Fall hard, I know it's fast
You just left her, that's the past
Already deep in my bed naked
So why don't you stay stay stay stay over
So why don't you stay stay stay over
You gave me my birthday kiss
I gave you a night that you will never forget
I know that you planned to be free for a while
But you can be free with me, I've been where you are
See in your eyes you just went through war
Whatever it was broke your heart
You dip your toes back in, take it slow
Well I'm nothing like what you've had before
So
Already deep in my bed baby
Why don't you stay over
Know we've been bending the rules lately
But why don't you stay over
Fall hard, I know it's fast
You just left her, that's the past
Already deep in my bed naked
So why don't you stay stay stay stay over
(Why don't you, why don't you)
So why don't you stay stay stay over
(Why don't you, why don't you) Don't back away from this, don't back away
I know it's intense losing our senses in this love
So don't back away from me, don't back away
Cause what we have I never felt before
So Already deep in my bed baby
Why don't you stay over
Know we've been bending the rules lately

But why don't you stay over
Fall hard, I know it's fast
You just left her, that's the past
Already deep in my bed naked
So why don't you stay stay stay stay over
(Why don't you, why don't you)
So why don't you stay stay stay over
(Why don't you, why don't you)
