

Needle and Haystack Life

Switchfoot

(In this needle and haystack)The world begins
With new born skin
We are right now
You're a needle girl
In a haystack world
We are right nowYou breathe it in
The highs and lows
We call it livingIn this needle and haystack life
I found miracles there in your eyes
It's no accident we're here tonight
We are once in a lifetime
Don't let go
Don't give up hope
All is forgiven
You breathe it in
You breathe it in
We call it livingIn this needle and haystack life
I found miracles there in your eyes
It's no accident we're here tonight
We are once in a lifetimeAll is not lost
All is not lost
Become who you are
It happens once in a lifetime
In this needle and haystack life
I found miracles there in your eyes
It's no accident we're here tonight
We are once in a lifetime alive
We are once in a lifetimeIn this needle and haystack life
We are once in a lifetime
