Pay you, dandan dandan

Omo, I too bad

If anything, that's not a new fact

You know we on top of the food chain

No matter what happens just promise me that you won't confuse that

May goin' grow, screw that

Middle finger, chew that

So many trips, I need jet fuel

Best believe I abuse that

Big finger, my index finger

I'm bossed up and flossed out

This pretty girl say she wanna take a picture

But f**king me is all she talks 'bout I know you bad or perfect to enter my parole
I'm not tryna make your head expand o
But I know what is to be dragon
Be my Kelse I'll be your dragon
We stand up just like the Prado
I ain't playing no games, no caro
So just while lemme nap your back o
Can you ride a bike with no handle
Till everything is dismantled
Show me what you can handle
I just want a taste of that sample I'm D'Banj
File, file, file, file, file
This is the last time you're going to see a bad guy like me
Bad guy like me
This is the last time I say hear me now
No more bad guy like me anymore
Yes Scarface, lomo yeh.
