

Rockit Man (feat. Silk-E)

Zion I & The Grouch

(grouch)

the truth is hard to swallow, baby get a bigger bottle
you ain't goin' full throttle, this will make ya' crawl though
inside is where we all know what's right and wrong
i'll draw slow, let the flaws go 'til they grow into a model
that everybody follows even though foundation's hollow
like thinking' you're a father just because you made a daughter
or daily chaisin' dollars, now that ain't it, we all know
i could be a baller, rather answer my call though
i'm raw yo, spit how it was saw so
we ain't gonna lose, it ain't the shoes and it ain't all the smoke
mirrors see you clearer, start with you just like michael did
i could change the world with this music more than rifles shoot
it's a gift, it's a curse, talkin' bout your birth, now what ya worth?
not in gold but in your soul, mature it and we can flourish
lately we begin discouraged uncherished and malnourished
repeat it like you're a parrot, regurgitate like other birds
so far from just some words, if we're assertive we'll be heard
what's the verdict? what's deserved? so what if i struck a nerve!
i suck if it's just a curve, that ruckus is just a blurb
wont last past the blast off, i'm onto other worlds...

(chorus)

this one goes out to you
all my soldiers around the world
put your one's up in the air
if you are a rockit man
say i am a rockit man
rockit man rockit man(zumbi)
hold tight i'm bailing in
listen what i'm telling you
solomon was wise, but
too many wives were killing him-
learn to be a rocket
we exist at subatomic
levels-all them devils
that you keep in your pocket
return to their sender
getting burned in your optic
now the cycle has a logic
some may call it cosmic-
shoot it-like a-rocket- man
i-adopt-a proper plan-

am i prepared- where?
future world is here.
up out of this atmosphere yeah
but i still see clear yeah
spread more love
no fear in here
got to be sure as we get near
coming up on a higher zone
now you'll never be alone
feel the bass within your dome
when i'm in space i feel at home-
i'm- in a-nother dimension
we hold the key to this life's destiny
i'm a lost dream haunting around your city
og's spreading the seeds we seek
peace(chorus)
this one goes out to you
all my soldiers around the world
put your one's up in the air
if you are a rokit man
say i am a rokit man
rokit man rokit man(bridge)
fly until i reach the sun
touch the stars
just hold on
i'm a rokit
i'm a rokit man-
hop up on my shoulder blades
we can soar-
for days and days
i'm a rokit-
i'm a rokit man-
