

# Drive (feat. Arama)

## TOKiMONSTA

i turn the lights off  
and now you want in  
i'm down the road now  
i'm staying on it  
on it  
on it  
i kind of like it  
with no plans, ain't turnin' roundi got a whole lot of new things going on  
a new set of wings i'm trying on  
i'm feeling your new things  
do things  
true things  
since i put it in drive  
don't you know ran away, taking my love with me?  
know this time you won't be shotgun  
know that you got used to me  
today's another day  
putting some miles between my love  
drive  
taking every part of me  
i'm just gonna ride  
replacing the heart of me  
i'ma keep it moving  
drive  
taking every part of me  
i'ma keep it moving  
replacing the heart of me  
i'ma keep it moving started like a sweet symphony  
and then you had to change the key  
i'm not playing when i'm saying all the things that i can't explain  
there's just something more that i need  
i've gotta whole lot of new things going on  
a new set of wings i'm trying on  
i'm feeling your new things  
do things  
true things  
since i put it in drive  
don't you know i ran away, taking my love with me?  
know this time you won't be shotgun  
know that you got used to me  
today's another day  
putting some miles between my love ride

taking every part of me  
i'm just gonna ride  
replacing the heart of me  
i'ma keep it moving  
fly  
taking every part of me  
i'ma keep it moving  
glide  
replacing the heart of me  
since i put it in drive  
drive  
drive with me  
drive with me  
i'ma keep it moving i've gotta whole lot of new things going on  
a new set of wings i'm trying on  
i'm feeling your new things  
do things  
true things  
since i put it in drive  
don't you know i ran away, taking my love with me?  
know this time you won't be shotgun  
know that you got used to me  
today's another day  
putting some miles between my lovedrive  
taking every part of me  
i'ma keep it moving  
fly  
replacing the heart of me  
i'ma keep it moving
