

# Revenge

## Plain White T's

By now you should know everything you say  
Can and will be used against you some day  
I got the microphone so don't go too far  
Cause I'm gonna tell the whole world how you really are I don't even care how you're gonna feel  
Cause I've already tried to give you something real  
So go ahead and get mad never talk to me again  
I don't even care cause I got my Revenge  
Revenge  
Revenge  
Got my revenge  
One night you're begging me to stay  
The next night you push me away  
I don't need you're promising to give it up  
Is too late cause now I'm giving up Revenge  
Revenge  
Got my revenge By now you should know everything you say  
Can and will be used against you some day  
I got the microphone so don't go too far  
Cause I'm gonna tell the whole world how you really are So go ahead and get mad never talk to  
me again  
I don't even care cause I got my Revenge  
Revenge  
Got my revenge  
Revenge  
Revenge  
Revenge  
Got my revenge Revenge  
Revenge
