

# zerospace (Q-Burns Abstract Message Remix)

## kidneythieves

I am a fallen zer  
Below the glaciers of the evil  
I am a golden superhero  
Above the sun and all the people  
Space in your face im gonna drink  
the f\*cking ocean cause I ain't from a coast I'm just coastin  
Said I was an afterthought you'd bring along,  
well who' u after now, bitch? Run, mother f\*cka, run  
And if you think im space-cakening  
I've been in shit of rude awakening  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this  
In the middle I stay in place, skip or trip at zerspace  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this  
I met a fellow zer  
He took me to the silver people  
I said, "I think you are my hero"  
+ we were one it all was clearer  
Space in your face, it's the way to get you closer;  
while you were sittin on your ass, \*  
-- I drank the f\*cking ocean  
Zerspace the way to get your kicks, but too many chefs in the kitchen could spoil the mix  
I am a  
means until the end  
I move a mountain with my hand  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this  
In the middle I stay in place, skip or trip at zerspace  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this  
And im high (but im always down)  
Skip or trip to face the space or fake in this
