

# This Time Darlin'

## Social Distortion

As I'm looking back  
On broken down dreams  
Heartbreaks and memories  
That I've had  
I made it through the hard times  
And came back a stronger man  
But this time darling it's just not the same  
Down the lonely stairs  
With a suitcase in my hand  
Misery can be a heavy load  
I've made it through the hard times  
And in vain I made it back  
But this time darling it's just not the same  
In the morning I was lonely  
But never bothered to cry  
Never even stopped to wonder why  
Leaving was just another part of the game  
But this time darling it's just not the same  
In the morning I was lonely  
But never bothered to cry  
Never even stopped to wonder why  
Leaving was just another part of the game  
But this time darling it's just not the same  
As I'm looking back  
On broken down dreams  
Heartbreaks and memories  
That I've had  
I made it through the hard times  
And came back a stronger man  
But this time darling it's just not the same  
This time darling it's just not the same  
But this time darling it's just not the same
