

# Everglow

## Starset

You come in waves  
Till you're all I know  
Then you fade away  
Into nothing  
Weighed down by dark matter inside  
You leave me frozen  
You leave me froze in time  
In your Everglow  
You'll never know  
The beauty I see when you open your shadows  
Everglow  
They'll never know  
The worlds I see in the darkness you don't show  
Ohh  
Falling through a landslide  
Feeling like the first time I felt you  
Ohh  
Caught inside the field lines  
That pull me to the land mines  
Inside you  
Black hole eyes won't gaze now  
Drawn in just the same  
You leave me frozen  
You leave me frozen inside Everglow  
You'll never know  
The beauty I see when you open your shadows  
Everglow  
They'll never know  
The worlds I see in the darkness you don't show  
Everglow  
You'll never know  
The beauty I see when you open your shadows  
Everglow  
They'll never know  
The worlds I see in the darkness you don't show
