

Rather Be Free (feat. Muzzy Berr)

GRiZ

You know it never fails
The way you pull me in
You got me under your spell
And it's an uphill battle that nobody wins
Can't call it love
When all we do is destroy
It's like I want you in my future
And in the past I wasn't too sure
But I know is you I've got to avoid I tell you something I start to know
See I got something but I wait for tomorrow
I see the light that's casting the shadow
But I'd rather be free
So I'd rather let you go Can't call it love
When all we do is destroy
Why do I always fail
In knowing what to do
You got me going through Hell
And it's the same kind of Hell
That I put you through
You can't call it love
But I'm afraid it was true
I wish that I could see the future
Cause right now my heart ain't too sure
That I could ever forget you
