## Ultragigantor

## **Red Line Chemistry**

I used to be somebody who could control myself but I can't anymore I used to have a grip on reality but I keep on slipping downNow I'm under pressure Deny the limitation I am my own worst enemy it kills me every time.Big machine, take it for a ride get inside and grow this crushing soundDeny the limitation Deny the limitation It's all a part of the animal in myself And I just don't care anymore I let it take the shape of duality And I feel I'm breaking out Now I'm under pressure Deny the limitation I am my own worst enemy it kills me every timeBig machine I'll take it for a ride Get inside and grow this crushing soundBig machine I'll take it for a ride Get inside and grow this crushing soundDeny the limitation Deny the limitationIt's all a part of the animal in myself It's all a part of the animal in me Now I'm under pressure Deny the limitation I am my own worst enemy it kills me every timeBig machine I'll take it for a ride Get inside and grow this crushing sound Big machine I'll take it for a ride Get inside and grow this crushing soundDeny the limitation Deny the limitationI use to be somebody who could control myself But I can't anymore I used to have a grip on reality But I keep on slipping down
