

1 Night (feat. Charli XCX)

Mura Masa

You are something special, oh-woah
Twenty carats of lit gold
What we had was precious, oh-woah
But I had to let you go We had a connection, oh-woah
But I'm not the type of girl who wants
Serious affection, oh-woah
It doesn't belong in my world It was only was only night
But I wanna go back to where we were
I just wanna go back to where we were
I just wanna go back to where we were
It was only was only night
But I wanna go back to where we were
I just wanna go back to where we were
I just wanna go
Do you wanna go?
Do you wanna go?
It was only one night
Do you wanna go?
Do you wanna go back to where we were?
It was only was only night
But I wanna go
Do you wanna go?
Do you wanna go back to where we were?
It was only was only night
But I wanna go
Do you wanna go?
Do you wanna go back to where we were? Got that chain reaction, oh-woah
Didn't know what it was worth
Sixteen million mentions, oh-woah
Ain't picking up the whole damn earth, no no no
We had a connection, oh-woah
But I'm not the type of girl, oh you
You are an exception, oh yeah
Yeah, you blew my mind, I wanna rewind It was only was only night
But I wanna go back to where we were
I just wanna go back to where we were
I just wanna go back to where we were
It was only was only night
But I wanna go back to where we were
I just wanna go back to where we were
I just wanna go Do you wanna go?
Do you wanna go?

It was only one night
Do you wanna go?
Do you wanna go back to where we were?
It was only was only night
But I wanna go
Do you wanna go?
Do you wanna go back to where we were?
It was only was only night
But I wanna go
Do you wanna go?
Do you wanna go back to where we were? It was only was only night
Do you wanna?
Yeah, yeah, yeah, do you wanna?
It was only was only night
