

# Say It

## Maggie Rogers

[Verse 1]

Standing in the open light  
Within the swelter of the night  
I found myself staring at you  
And every time our fingers touched  
I felt like it would be too much  
And too little hang onto[Refrain]  
I can not fall in love with you  
I can not feel this way so soon, so soon  
I can not be this way with you  
I can not fall in love with you

[Chorus]

I knew it when [?]  
That I'd be begging you to stay  
I couldn't say it to myself  
I couldn't say it to myself  
[?]

I held on with a big balloon  
I couldn't say it to myself  
I couldn't say it to myself  
I couldn't say it

I couldn't just say it[Verse 2]

Every evening, every time  
I keep replaying in my mind  
And wondering if you do the same  
And if it makes you lose your grip  
And if it makes you just forget  
That all of it's a bit insane

[Refrain]

I can not fall in love with you  
I can not feel this way so soon, so soon  
I can not be this way with you  
I can not fall in love with you[Chorus]

I knew it when [?]

That I'd be begging you to stay  
I couldn't say it to myself  
I couldn't say it to myself  
[?]

I held on with a big balloon  
I couldn't say it to myself  
I couldn't say it to myself  
I knew it when [?]

That I'd be begging you to stay  
I couldn't say it to myself  
I couldn't say it to myself  
[?]  
I held on with a big balloon  
I couldn't say it to myself  
I couldn't say it to myself  
I couldn't say it  
I couldn't just say it[Refrain]  
I can not fall in love with you  
I can not feel this way so soon  
I can not be this way with you  
I can not fall in love with you
