

# Addicted2Me

## Anjolie

Like water to earth, spiders to dirt  
My love's like a force that can't be disturbed  
The more that it yearns, the more that it burns  
More that a love like mine must be returned  
No, I don't wanna see nobody but me  
Next to you, it's much more than jealousy  
It's the air that I breathe, fire in me  
Baby, I'm not gonna stop  
Till you're addicted2me like the sand to the sea  
And everything that you see is a vision of me  
You're addicted2me like a fatal disease  
Until your love for me is a love like mine  
Nobody got a love like mine for you  
Nobody got a love like mine  
Nobody got a love like mine  
A love like mine  
I'm here at your door down on the floor  
Needin' you more and more  
I'm so high for you  
So high, so high, so high  
Till you're addicted2me like the sand to the sea  
And everything that you see is a vision of me  
You're addicted2me like a fatal disease  
Until your love for me is a love like mine  
Nobody got a love like mine for you  
Nobody got a love like mine  
Nobody got a love like mine  
A love like mine  
Nobody got a love like mine for you  
Nobody got a love like mine  
Nobody got a love like mine  
A love like mine  
Got love in my eyes, a love like mine  
Love in my soul, you make me whole  
Got love in my eyes, a love like mine  
Love in my soul, you make me whole  
Till you're addicted2me like the sand to the sea  
And everything that you see is a vision of me  
You're addicted2me like a fatal disease  
Until your love for me is a love like mine  
Nobody got a love like mine for you  
Nobody got a love like mine  
Nobody got a love like mine  
A love like mine  
Nobody got a love like mine for you  
Nobody got a love like mine  
Nobody got a love like mine  
A love like mine  
(Addicted2me)  
I got love in my eyes  
(The disease)  
I got love in my mind  
(Addicted2me)

Got love in my soul  
(The disease)  
You make me whole
