

Glow in the Dark

Family Force 5

You energize me
I've never felt this before
Oh, and it's blinding
Brighter than the sun at its core
This heart that is beating
Without worth repeating
A fire to be something more
I glow in the dark
You are made of light
Glow all day
Glow all night
Like the stars up in the sky
We keep on shining you and I
I glow in the dark
You are made of light
Glow all day
Glow all night
We shine
You & I glow in the dark
You energize me
With a passion that could send me to war
Electrifying
From the heavens to the ocean floor
I glow in the dark
You are made of light
Glow all day
Glow all night
Like the stars up in the sky
We keep on shining you and I
I glow in the dark
You are made of light
Glow all day
Glow all night
We shine
You & I glow in the dark
Try to change me
Try, try to change me
You've never change me
(You'll never change me)
I glow in the dark, dark, dark, dark
I glow in the dark, d-dark, dark
I glow in the dark
You are made of light
Glow all day
Glow all night
Like the stars up in the sky
We keep on shining you and I
I glow in the dark
You are made of light

Glow all day
Glow all night
We shine
You & I
